## **REASONS FOR ALLOWANCE**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/07/2005 has been entered.
2. The following is an examiner's statement of reasons for allowance: The examiner has reviewed the applicants' arguments
3. The examiner has included a signed copy of the previous PTO-1449 where the references had not been considered.
4. The amendment of the claims makes the claimed invention patentably distinct from the closest prior art (5,912,070), the prior art does not have a cycloolefin layer or layers in the position claimed nor are there provisions for cycloolefin layers on opposite sides of the core. The prior art has an unsymmetrical structure and includes a polyester layer. This structure does not meet the any of the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
